Snow Removal

We will now be removing snow not plowing snow. The process of snow removal is expected to reduce the issues with berm build up over the season.

Please watch for snow removal signage. We are asking that you do not park on the street if you see signage for snow removal on your street. We will be actively removing snow both during the day and night.

Thank you in advance for your patience as we are developing new procedures and processes for snow removal.

Help out the environment and get your utility bill emailed. If you would like your bill emailed contact

WATER LINES AND EXTREME WEATHER

Extreme temperature fluctuations can cause pipes to freeze, leading to burst pipes and water damage. We recommend that you inspect the lines in your home if there has been an extreme weather change. Proper insulation and regular maintenance are crucial for preventing pipe damage and freezing. Insulation can protect pipes, conserve energy, and prevent freezing issues.

At this time, we are not getting reports from other areas of the Village. RCMP are asking that the public keep an eye out for suspicious persons/vehicles in their areas at night and to alert police.
